Map based on average of Crash Longitude and average of Crash Latitude. Color shows details about Crash Severity. Size shows details about Crash Ref Number. Details are shown for Crash Ref Number. The data is filtered on Crash Year, which ranges from 2001 to 2023. The view is filtered on Crash Severity, which keeps Fatal and Hospitalisation.

Crash Timing Heatmap

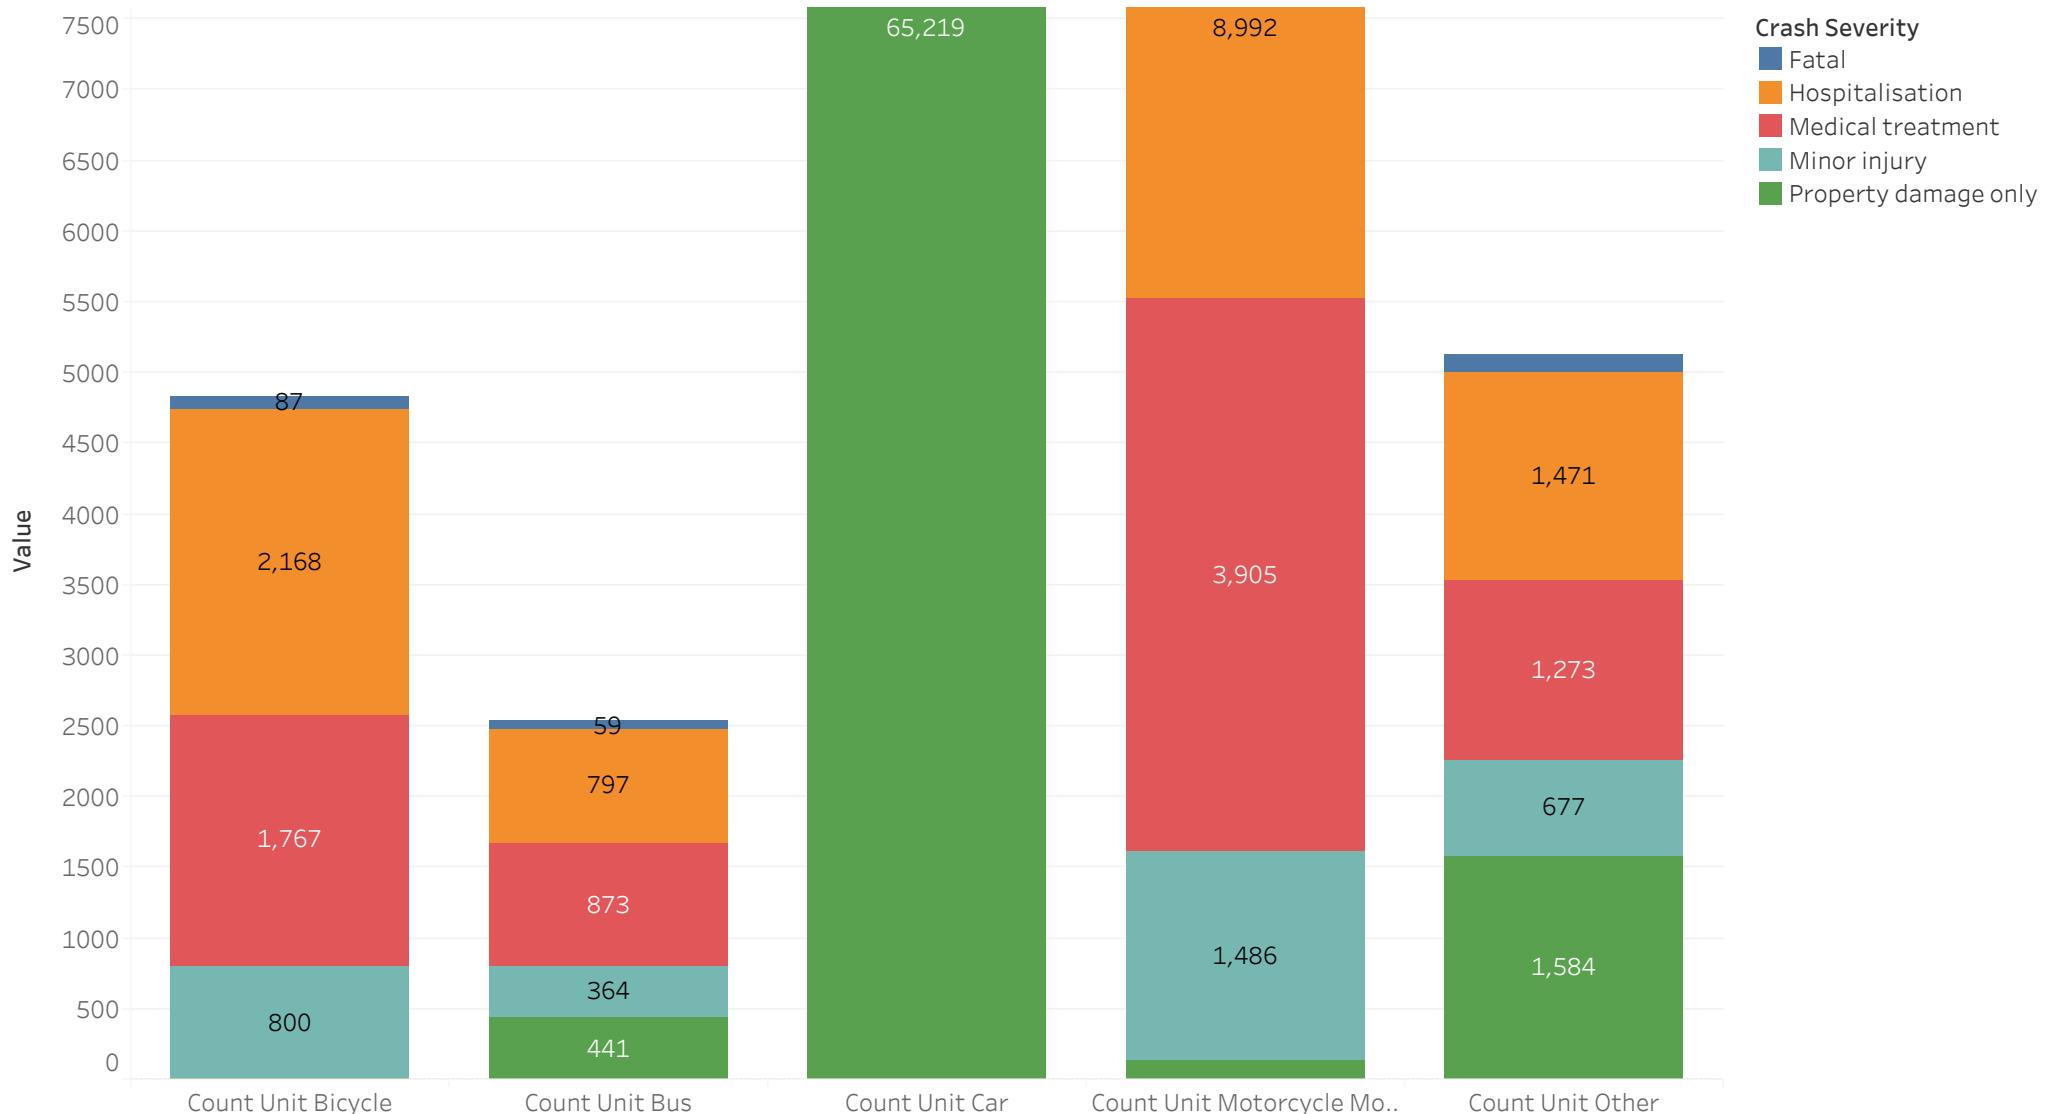

Sum of Crash Hour for each Crash Day Of Week. Color shows count of Crash Ref Number. The marks are labeled by count of Crash Ref Number.

Severity by Condition

% of Total Count of Crash Ref Number for each Crash Atmospheric Condition. Color shows details about Crash Severity. The marks are labeled by % of Total Count of Crash Ref Number. The data is filtered on Crash Lighting Condition, which keeps Darkness - Lighted, Darkness - Not lighted, Dawn/Dusk and Daylight. The view is filtered on Crash Severity, which keeps Fatal, Hospitalisation, Medical treatment, Minor injury and Property damage only.

Vehicle Involvement in Severe Crashes

Count Unit Bicycle, Count Unit Bus, Count Unit Car, Count Unit Motorcycle Moped, Count Unit Other, Count Unit Pedestrian and Count Unit Truck. Color shows details about Crash Severity. The marks are labeled by Count Unit Bicycle, Count Unit Bus, Count Unit Car, Count Unit Motorcycle Moped, Count Unit Other, Count Unit Pedestrian and Count Unit Truck. The view is filtered on Crash Severity, which keeps multiple members.

Vehicle Involvement in Severe Crashes

Count Unit Bicycle, Count Unit Bus, Count Unit Car, Count Unit Motorcycle Moped, Count Unit Other, Count Unit Pedestrian and Count Unit Truck. Color shows details about Crash Severity. The marks are labeled by Count Unit Bicycle, Count Unit Bus, Count Unit Car, Count Unit Motorcycle Moped, Count Unit Other, Count Unit Pedestrian and Count Unit Truck. The view is filtered on Crash Severity, which keeps multiple members.
